現象學 phenomenology 葉乃靜

2012年10月 圖書館學與資訊科學大辭典

名詞解釋:現象學係對現象進行探究的學科,任何事物不論是想像中的或是確實存在的,只要能使自身顯現於人的意識中,就是現象。現象學最獨特的核心是它的方法。現象學方法的目標在於擴大和加深我們直接經驗的範圍。它反對簡化主義,例如現象學的核心概念之一「回到事物本身」,指的是放棄傳統經驗主義的想法,即不用傳統承襲下來的信仰和理論,解釋看到的事物;不用傳統先入為主偏見,而是轉向現象本身。這也是現象學重要概念之一「懸擱」,即將個人原有的認知和經驗擱置,對前判斷和理論的「理所當然性」存而不論,「回到事物本身」來呈現現象。

現象學研究特殊現象時,會對現象直觀把握、對現象分析考察,並對現象描述。對現象的直觀指的是現象在知覺或想像中,或者二者的結合中呈現,不以個人偏見感知它。因為事物的本質是無法被論證和推演的,必須透過直觀來掌握。現象的分析考察指的是直觀所獲得的諸現象要素和結構。現象描述則是以隱喻或類比方式,表達對現象的實際體驗。這種回到現象本身探就事物的本質,不以因果律來解釋,即所謂的「現象學的還原」。

現代現象學受到重視是因為哲學大都企圖順應現象學的方法,並且用這種方法表達自身。也因此它的傳播範圍愈來愈大,漸成一種國際性的哲學思潮。

Monday, January 28, Monday, January 28, Transcendentalism Transcendentalism and The Gothic COI Henry Henry Transcendentalism Transcendentalism Henry Henry The Gothic Coi COI The Gothic Coi The Gothic

At the heart of transcendentalism lies the idea that God infuses all things in the universe with some degree of divinity. It places a great importance on the connection between the individual and the world around him. Hawthorne's short story "My Kinsman, Major Molineux," Robin, a boy of 18 years, visits a foreign land to search for his uncle. He asks several strangers for any clues about the location of his kinsman and his quest takes a very long time. At its end the country boy has grown "weary of a town life" and asks to be shown to the ferry so that he may return home. So Hawthorne's character is an example of one who goes off to a strange land to find something, but quickly longs to return to his place of comfort.

Henry David Thoreau gives a very different account of a quest in Walden. He tells the story of how he lived in the woods for an extended time--2 years, 2 months, and 2 days--in order to commune with nature. His morning ritual here involves bathing in the pond; this activity represents a type of spiritual purification. By separating himself from the duties of society, he is able to appreciate the things God created and to achieve a higher level of spirituality. However, Thoreau eventually leaves the woods because he feels that he has other lives to lead.

There are also a few Gothic works from this week's assignment which critique the stereotype of outer beauty. Hawthorne's "The Birthmark" tells the story of Georgiana, a beautiful woman whose countenance is rendered "hideous" by a birthmark. The spot is considered a flaw and becomes a symbol of her "liability to sin, sorrow, decay, and death"--foreshadowing to the end of the story. Her lover, Aylmer, begins to be troubled by this mark and desires to remove it from Georgiana. However, he is careless with the procedure and his crazed passion to rid the spot at all costs leads to the loss of his love. The lesson here seems to be to look beyond outward beauty and to see the part that truly counts--the inside.

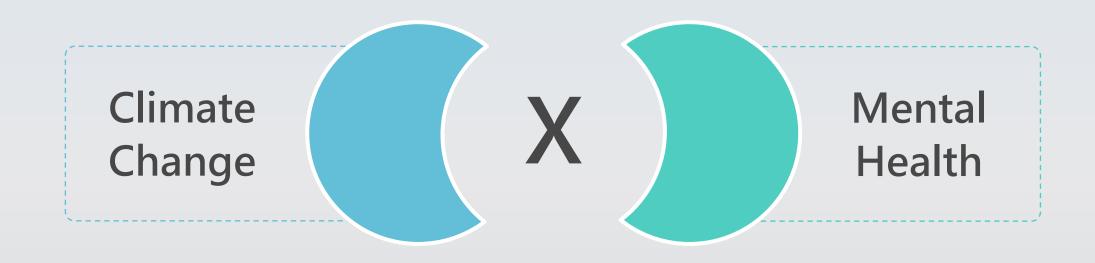

Henry David Thoreau

Henry David Thoreau,1817年7月12日 - 1862年5月6日,散文集《湖濱散記》和《公民不服從》(又譯為《消極抵抗》。討論面對政府和強權的不義,為公民主動拒絕遵守若干法律提出辯護。梭羅闡述了研究環境史和生態學的發現和方法,也奠定了現代環境保護主義。他對公民不服從的見解影響了托爾斯泰、聖雄甘地,約翰甘迺迪和馬丁·路德·金。最好的政府一無所治;在人們準備好之前,那將是他們願意擁有的那種政府。暗示了他的無政府主義傾向。

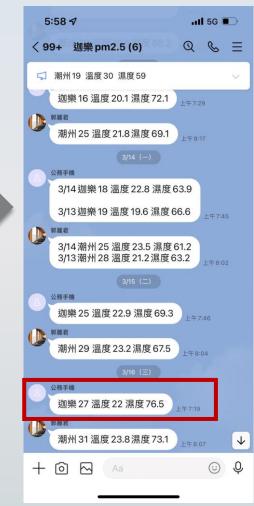

1828年9月9日1910年11月20日Leo Nikolayevich Tolstoy 1908年,托翁在致印度人民的公開信中譴責了英國殖民統治,宣揚「勿以暴抗惡」原則,鼓勵印度人用「愛的原則」拯救自己。在英國就學時就喜愛托爾斯泰的甘地大為震動,於1909年開始與托翁書信交往,直到第二年托翁逝世。深受託翁感染的甘地在南非工作期間,建立了托爾斯泰農場,接受了「勿以暴抗惡」的思想,被羅曼·羅蘭翻為「托翁聖火的傳人」。 The Kingdom of God is Within You is a key text for Tolstoyan, proponents of nonviolence, of nonviolent resistance, and of the Christian anarchist movement
